CHAS. BURNETT CROSSES DIVIDE

Word was circulated around Carbon on Sunday morning that Chas. Burnett, a Carbon Old timer, had been found dead just outside his house that morning by Colin McPherson. Mr. Burnett was in town on Saturday night and did not return home that evening. Mr. McPherson was not alarmed for it was often the custom of Mr. Burnett to remain in town Saturday night. However, on Sunday morning when Mr. McPherson went to feed the chickens about 8 o'clock, he found Mr. Burnett's body outside the house. Death was later pronounced due to heart failure.

The late Mr. Burnett was a Carbon old timer, having come to town in 1906 and for a greater part of his time he was engaged in the store business. He was a bachelor, 57 yrs. of age and he leaves to mourn his loss a sister and a brother. These relatives were immediately notified and they arrived to attend the funeral services.

Funeral services were held from the Masonic Hall on Tuesday afternoon and a large crowd was present to pay their last respects to the deceased. The pallbearers were: Messrs. Neil Cunningham, S. Mortimer, Chas. Nash, Joe Ramsay, Thos. Ramsay and Jas. Castiglione. The Rev. C. B. Oakley officiated and funeral arrangements were in the charge of Winter Bros. of Drumheller. Interment was made in the Carbon cemetery.

WM. DIXON LAID TO REST LAST THURSDAY

Funeral services of the late Wm. Dixon, who was electrocuted last Monday, were held from the Carbon United Church at 2 p.m. on Thursday, March 14th, the Rev. C. B. Oakley officiating.

The late Mr. Dixon was 39 years of age and he leaves to mourn his loss a sorrowing wife and four small children.

The pallbearers at this funeral were Messrs. W. Talbot, V. Hawkins, Geo. Wise, J. Shale, G. Cadman and Chas. Patterson.

ST. PATRICK'S DAY DANCE

Lovers of the lute and flute and the fiddle of the Fiddle will have the time of their lives on Monday March 18th at the St. Patrick's dance, promoted by the Carbon Tennis club, in the Farmers Exchange hall as Mrs. Kink. Mary's premier dance violinist will be here with her Calgary orchestra. The hall will be decorated in real Irish style except that they haven't the Barney Stone. Refreshments will be served in real Irish style for there is nothing stingy about the Irish. The admission to this dance of the season will be \$1.50 per couple.

A. F. McKibbin has purchased Jas McLeod's house and will move in the first of the month.

Miss Annabelle Ramsay spent the week end at her home in Carbon. She returned to Calgary Monday morning.

Spring is here at last and there is no snow in this part of Alberta, the ground being all clear of snow. There is still considerable frost in the ground, however, but if the present weather prevails it will only be a matter of another couple of weeks before the farmers are on the land.

There will be a Board of Trade meeting in the Municipal office next Monday evening, March 18, at 8 p.m. sharp. Some very important business in connection with the farmers will be discussed and on this occasion the country members and their friends are asked to be present.

FAREWELL FOR MR. & MRS. J. McLEOD

A large crowd of country and town folks gathered together in the Farmers Exchange hall on Tuesday evening in the form of a farewell party for Mr. and Mrs. Jas. McLeod, who are leaving Friday for Kelowna, B.C., where Mr. McLeod has secured a position.

The evening opened with whist and Mrs. Alex Shaw was the winner of the ladies' prize, while Wm. Poole captured the gentlemen's prize. At this time Mr. and Mrs. McLeod were presented with a handsome silver tea service by their many friends in Carbon and district, as a token of their valued friendship while they have resided in Carbon. The Ladies Aid of the Carbon United Church also presented Mrs. McLeod with a silver berry bowl. The remainder of the evening was spent in dancing and during intervals Mrs. Evans and Mrs. S. F. Torrance favored the gathering with vocal solos. A sumptuous repast was served at midnight.

Mr. and Mrs. McLeod have been residents of Carbon for eight years and have made a wide circle of friends here. Their absence will be greatly missed, but we trust that they may have a happy future in their new home at Kelowna, B.C.

LITTLE ITEMS OF LOCAL INTEREST

Hugh MacDonald was out from Calgary over the week end and returned on Monday.

A number of the young people attended a dance at the Webb school last Friday night.

Miss Daphne Nash spent the week end at her home in Carbon. She returned to the City on Monday.

W.H.T. Olive has moved into the house formerly occupied by Wm. Olive. Fred Weiss of Beiseker has moved into the old postoffice building.

Miss Vera Poxon of the Garbutt business college, spent the week end at her home in Carbon. She returned to the city on Sunday.

A new coal crusher was installed in the Stopp mine on Tuesday.

Miss Helen Smith was a Calgary visitor on Sunday and returned Monday night.

One of the prettiest displays of the Aurora Borealis (northern lights) was seen here on Monday night, when the northern and eastern skies were aglow with deep green and purple colors.

There will be a meeting of all those interested in organizing a baseball club in Carbon, in the Municipal office on Tuesday evening, March 19th. All interested in this sport are urgently requested to be present.

BABY'S OWN TABLETS

WIN GREAT PRAISE

Many Mothers Always Keep Them In the House

Thousands of mothers state that they know of no other medicine for little ones to equal Baby's Own Tablets—that they always keep the Tablets in the home as a preventive of childhood ailments, or if sickness does suddenly grip their little ones they feel safe with such a remedy at hand.

Concerning the use of the Tablets Mrs. Donat Plouffe, Tingwick, Que., writes:—"I have nothing but praise for Baby's Own Tablets. They are the only medicine I have ever given my two little ones and I am glad to state that the Tablets have always kept them in perfect health. I feel so safe with the Tablets that I always keep a box in the house."

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels, sweeten the stomach and thus banish constipation and indigestion; break up colds and simple fever and make the cutting of teeth painless. The Tablets are absolutely safe, being guaranteed free from all injurious drugs. They are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Turkey possesses important forest resources, chiefly in the northern districts of Anatolia.

Are You Ready

When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the crueler pangs of colic, or constipation, or diarrhea; effective, too, for older children. Twenty-five million bottles were bought last year.

Fletcher's
CASTORIA

WORLD HAPPENINGS BRIEFLY TOLD

The French Parliament has ratified France's signature to the Kellogg renunciation of war pact by a vote of 570 to 12.

There were 2,300,000 unemployed in Germany on February 15, an increase of 50,000 since the end of January, official figures show.

The year 1928 was a disastrous one for Canadian hail insurance companies, the loss ratio being 100.39 per cent. of the premiums, according to official figures released at Ottawa.

Announcement is made by the Canadian Bank of Commerce that arrangements have been made to open a branch at Fort Churchill, Man., the eventual terminus of the Hudson Bay Railway.

Edmond J. Massicotte, well known Canadian artist, died at his home at Sault Aux Recllets, Que., after a short illness. He was 53 years of age. Massicotte was known chiefly through his pen and ink sketches of Canadian subjects.

A total of \$9,814,531.65 was spent in 1928, in grading, track laying, and ballasting on the Canadian National Railway lines according to a report tabled in the House of Commons by Hon Charles Dunning, minister of railways.

Asthma No Longer Dreaded. The dread of renewed attacks from asthma has no hold upon those who have learned to rely upon Dr. J. D. Kellogg's Asthma Remedy. So safe do they feel that complete reliance is placed on this true specific with the certainty that it will always do all that its makers claim. If you have not yet learned how safe you are with this preparation at hand get it today and know for yourself.

One of the world's largest dams has been constructed on the Indus river, in India, for irrigation purposes.

Internal parasites in the shape of worms in the stomach and bowels of children sap their vitality and retard physical development. They keep the child in a constant state of unrest and, if not attended to, endanger life. The child can be spared much suffering and the mother much anxiety by using a reliable worm remedy, such as Miller's Worm Powders, which are sure death to worms.

The Japanese alphabet possesses two sets of characters—katakana for the use of men, hiragana for women.

The Oil Of the People.—Many oils have come and gone, but Dr. Thomas' Electric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it and would use no other preparation.

At Broussa a Turkish captain has been sentenced to a year's hard labor for opposing the new alphabet introduced by Mustapha Kemal.

Sores Flee From It.—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Electric Oil. All similarly troubled should lose no time in applying this splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

The first patent for the manufacture of wallpaper was taken out in 1692.

Minard's Liniment prevents Flu.

SUNDAY SCHOOL LESSON

MARCH 17

THE CHRISTIAN SABBATH

Golden Text: "For the Son of man is Lord even of the sabbath." — Matthew 12.8.

Lesson: Genesis 2.2, 3; Exodus 20.8-11; Matthew 12.1-14; 28.1-10; John 20.19; Acts 20.7; Romans 14.4-6; Revelation 1.10.

Devotional Reading: Psalm 92.1-5, 12, 13.

Explanations and Comments

Reverence the Sabbath, Exodus 20.8-11.—Remember the Sabbath day, to keep it holy: The root meaning of the word rendered "hallowed" in verse 11, is "to separate"; the Sabbath day is to be separated from other days by the way it is spent. Six days shalt thou labor, and do all thy work.

There are many persons whose difficulty in keeping this fourth commandment lies right there—they are too lazy to work the six days. The commandment lays stress upon working as well as upon rest. "Every man is as lazy as he dares to be," is an oft repeated saying which is not without some measure of truth. "Life without industry is sin," declares Ruskin. The tragedy of many a life is that time is not felt to be a trust for whose use he must render account. "Tis the measure of a man—his apprehension of a day."

"You keep the sabbath in imitation of God's rest. Do, by all manner of means, and keep also the rest of the week in imitation of God's work." — Ruskin.

"The setting apart of one day in seven for rest and worship was due, primarily, to the fact that the human machine will run six days with ease and regularity if it can rest on the seventh day, but it will creak and break if it is pushed on through every day alike. The duty of rest is quite as imperative as the necessity of work. The individual or the nation that disregards this law pays the penalty."—Amory H. Bradford.

ACHES

WHEN a cold or exposure brings aches and pains that penetrate to your very bones, there is always quick relief in Aspirin. It will make short work of headaches or any little pain. Just as effective in the more serious suffering from neuralgia, neuritis, rheumatism or lumbago. No ache or pain is ever too deep-seated for Aspirin tablets to relieve, and they don't affect the heart.

WINDOLITE

MADE IN ENGLAND

The Improved Glass Substitute

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 150 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

CHAPTER XVI.—Continued.

Wild berries, dead ripe, hung on lush drooping branches.

A soft "prut-prut-kwit-kwit" came from the leader of a covey of willow grouse that were feeding on the tiny fruit of a crab-apple tree. The call was answered by a shy note from one of the young birds, who probably was being taught the scale.

The summer had been one of exceptional dryness. For weeks there had been no rain, and a blazing hot sun had poured its fiery rays from a cloudless sky. The heavy mountain dews could not penetrate the close standing timber, and the carpet of needles and moss became dry as tinder. A pall of smoke, from fires raging on the Coast, hung over lake and mountain.

For Wilkinson and his men these were anxious days. They covered the action between the mill and Squamish twice a day; scanning the hill-sides and valleys, ever watchful, ever on the alert; pleading and exhorting the settlers and loggers to greater vigilance, and all the while praying fervently for rain.

Donald had posted a notice that any employee found smoking in the woods would be immediately dismissed. Logging creates a vast amount of debris, or "slash," as it is known to the men of the woods. With the assistance of the Forestry men, Donald's crew had piled enormous heaps of slash on the hillside, awaiting a favourable opportunity to burn. These menacing piles of brush, extending along the main road for a quarter of a mile, were a constant source of danger. Every precaution, therefore, was taken. The spaces between the mounds of brush were raked clean, the road was patrolled day and night, and pails filled with water were placed at regular intervals. Special notices stating the great danger of fire, and warning not to smoke in this area, were posted conspicuously on tree and stump.

The mill at Cheakamus had closed. Sparks from the donkey engines had threatened the extinction of both plant and timber.

Donald with Wilkinson stood surveying the piles of dangerous waste. "If a fire starts and we can get to it at once, we will be all O.K.," said Wilkinson, "but if it ever gets away from us here," pointing down the road, "no human agency can stop it."

They made the rounds of the patrol to satisfy themselves that the watchmen were attending to their duties. Leaving the main road, they scrambled through the tangled masses of tree-tops to ascertain how far distant the slash had been removed

from the standing timber. Suddenly a tiny wisp of smoke was seen to drift from behind a fir tree at the edge of the clearing. Without comment, both men broke into a run.

Aroused by the crashing footsteps, a young man, who had been lying stretched lazily on the soft moss, came quickly to his feet, a cigarette held in his fingers. His companion, also smoking, lay with his back against the bole of a tree a few feet distant. Fishing rods, creels, landing-nets and the remains of a lunch lay scattered on the ground.

"Don't you know better than to smoke here?" blazed Wilkinson.

The fisherman brazenly replaced the cigarette between his lips. Wilkinson's arm shot forward like a flash to pluck the offending weed from the mouth of the astonished youth. "I wish we had a law to prevent smoking in the woods. I would take great pleasure in arresting you," he growled savagely as he pinched the fire from the cigarette and ground it under his heel.

Unnoticed by the Forest Ranger, the second man removed his cigarette furtively and with a flirt of his hand threw it behind him as he rose to his feet.

"You are too damned officious! You have no authority to prevent us smoking," he said angrily, as with clenched fists he advanced belligerently.

Wilkinson was near the breaking point. The weeks of worry, the long hours of arduous toil, and the lack of sleep had frayed his nerves. "Damn you!" he flared, "if it's a fight you want—!" He broke off suddenly, his eyes wide and staring. "My God! look!" he shouted. A flare of flame shot from the spot where the cigarette had fallen. A breeze rustled through the trees to fan the flame to a drumming roar as a pile of slash caught fire. The Red Terror was loosed.

"The alarm!" cried Wilkinson.

"Fire!" shouted Donald as he stumbled to the road.

"Fire!" repeated the nearest patrolman.

"Fire!" rang the cry down the line until the call reached the mill, and every whistle was loosed in a screaming bedlam of sound to blanch the cheeks of these hardy men, who knew the awful terror of this devastating, devouring, fiery scourge that blasts the wilderness with smoke and ashes and takes its toll of both man and beast. Men dropped their tools and ran to answer the call.

The trapper's dugout shot swiftly across the lake.

Connie lay reading in the shade of her cabin. She came to her feet at the whistle's first call for help. A moment later, seated astride her cayuse, she was galloping down the hill.

Every man, regardless of position, answers the call to fight fire. When a forest fire is raging the forest ranger is an absolute sovereign. He can call the lawyer from his desk or the labourer from the ditch, but seldom does he need to exercise this power, as every good citizen is willing to help stay the deadly scourge. Meanwhile the fire was leaping from heap to heap of the powder-like slash to cross the road and sweep the hill with incredible speed. With a throbbing roar it hissed to the tree-tops and rushed up the mountain. Stifling smoke enveloped the fire-fighters. Showers of burning bark pelted them from above.

"To the mill!" Wilkinson shouted; "we can do nothing here."

The men at the mill filed silently to their stations, and the big hoses poured torrents of water on roof and

SUN LIFE ASSURANCE COMPANY OF CANADA

An Increase of \$9,157,000	
Total Liabilities	- 422,020,000
(Including Paid up Capital)	
Assets, at December 31st, 1928	- 488,958,000
An Increase of \$87,652,000	
Rate of Interest earned on mean invested assets (net)	6.58%

DIVIDENDS TO POLICYHOLDERS INCREASED FOR NINTH SUCCESSIVE YEAR

The Company has also inaugurated the practice of paying a special maturity dividend on participating policies, ten or more years in force, terminating by death or maturity.

EXTRACTS FROM DIRECTORS' REPORT

... After deducting amounts re-assured, the total assurances in force now amount to \$1,896,915,934.57, an increase of \$408,925,254.48. Policies in force number 633,240, and in addition 136,293 certificates of assurance are held by employees of corporations and firms under the group plan.

While every field of operation contributed its full share to these impressive advances, the rapid development of our business in Great Britain and the United States is especially noteworthy. The generous reception of our Company in countries served by powerful domestic institutions is particularly gratifying, as testifying to widespread appreciation of our record and services.

... The amount paid to policyholders since organization, together with the amount at present held for their security or benefit, exceeds the total amount received from them in premiums by \$111,370,229.10.

The strength and resources of the Company have been still further enhanced.

The net rate of interest earned on the mean invested assets, after making provision for investment expenses, has risen to 6.58 per cent. Dividend increases, bonuses and stock privileges, accruing on many of the Company's holdings, contributed substantially to this gratifying result.

A net profit of \$11,028,854.59 has been realized from the redemption or sale of securities which had risen to high premiums.

The securities listed in the assets have been valued at figures substantially below the value placed on them by the Government. This under-valuation of our securities represents an important safeguard against possible adverse market fluctuations, additional to the reserves specifically provided against that contingency.

We are again able to report that on the bonds and preferred stocks listed in the assets, not one dollar,

due either as interest or as dividend, is in arrear for a single day; while the dividends accruing to common stocks exceed by several million dollars those payable on the same stocks at the time of purchase.

The surplus earned during the year, based on the values given in the accounts, amounted to \$40,264,088.52.

\$10,000,000. has been deducted from the already heavily marked-down value of securities, as additional provision against possible fluctuations, increasing the amount so set aside to \$20,000,000.

The special amount set aside as a liability to provide for unforeseen contingencies has been maintained at \$12,500,000.

\$15,822,339.65 has been paid or allotted as profits to policyholders during the year.

After making all deductions and allocations, \$9,157,966.34 has been added to the undivided surplus, bringing the total over liabilities, contingency accounts, and capital stock, to \$54,438,862.48.

The continued prosperity of the Company enables your Directors to announce, for the ninth successive year, a substantial increase in the scale of profits to be distributed to participating policyholders during the ensuing year.

In addition, your Directors have inaugurated the principle of granting a Special Dividend on participating policies maturing after having been in force ten years or longer. This new bonus will enable policyholders or beneficiaries whose withdrawal is occasioned by the maturity of policy contracts, to participate in the accumulated surplus which it has not as yet been considered prudent to divide.

The effort to provide life assurance at the lowest net cost obtainable has been increasingly appreciated. Our policyholders will be gratified by this further evidence of our desire that the Company's prosperity shall be fully shared by its members.

SUN LIFE ASSURANCE COMPANY OF CANADA

FLU Germs Breed In the Throat.

First Appear As A Common Cold, But Gain Tremendous Headway In Six Hours

SOME SIMPLE PRECAUTIONS AGAINST INFLUENZA

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nervilleine. Half a teaspoonful of Nervilleine in water makes a most efficient gargle. The germ-killing properties of Nervilleine quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure to rub the neck and chest with Nervilleine. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding germs. This combination treatment of Nervilleine and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

wall. Big jets curved up the hill to drench the dry, hot earth.

In short, quick sentences Wilkinson outlined his plans.

"We will try to stop it on the north at the river, on the south with fire-breaks, and at the track on the east by back-firing. On the west we have to let the fire take its course until it burns itself out on the cliff above." His voice rose in sharp command as he sent the men to their posts. Donald with twenty men under him was set to work digging a fire-break on the south side. A "fire-break" is made by spading up the leaf-mould and humus down to the mineral soil and raking all inflammable material back from each side.

The fire was advancing rapidly and the heat was terrific. Choking and gasping in the stinging resinous smoke, the men strove in frenzy of haste to complete the fire-break before the flames should reach them.

A deer with a fawn at her heels came bounding in terror through the screen of smoke. Grouse and song-birds made a common escape from a common enemy feared by all. Rabbits, wild-eyed, scuttled in fear; squirrels and chipmunks joined in the hurried flight. Many of these smaller birds and animals would be flanked and lost.

Connie, proud that she could be of

assistance, dashed back and forth carrying messages for Wilkinson to the different fronts.

(To Be Continued.)

Corns are painful growths. Holloway's Corn Remover will remove them.

Aluminum street cars, lighter and quieter than the heavy steel cars now in general use, are being tried in several cities in the United States.

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless,

SLEEPING DURING SERMONS

Why do people go to sleep in church?
The problem probably is as old as
Christianity itself. In colonial days
it was solved by having deacons prowl
up and down the aisles with long,
knobbed sticks, with which they tap-
ped sharply the heads of all who do-
zed. Dr. Edmund Jacobson, of the Uni-
versity of Chicago, has studied the
question and thinks he knows the
answer. Complete muscular relaxa-
tion, he says, brings with it relaxa-
tion of the thinking powers. The
man who slumps down in his seat,
inert and motionless as possible, can-
not keep his senses alert. Consequent-
ly he fails to concentrate on the ser-
mon and goes to sleep. We do not
know just what the remedy should be.
Apparently, however, the moral is
that the body, as well as the mind,
must be kept alert and responsive
while in church. Otherwise some of
the pastor's gems of wisdom are apt
to go unheard. We would like to
hear Dr. Jacobson's explanation of
the man who goes to sleep in the
movies or a man who goes to sleep
at the wheel of a high powered mo-
tor car, travelling at the rate of 25
miles an hour. There is certainly no
relaxation of the muscular powers in
that case.

THREE HILLS PRESBYTERY MEETS AT DELBURNE

The Presbytery of Three Hills, re-
presenting some 800 families of the
United Church of Canada, with 760
members, and holding property am-
ounting to over \$60,000, with 10 or-
dained ministers within its bounds,
met in Delburne on Thursday, Febru-
ary 21st. The good people of that
pretty town did everything possible to
make the Presbytery feel at home.

The business largely was routine,
but there were some very satisfactory
reports from a number of places and
every congregation was courageously
facing 1929.

Ally and Mirror asked to be separ-
ated and a man appointed at each
place. Rev. T. Harden is the present
minister. Delburne asked for an or-
dained man. Mr. E. J. Heuer has been
doing good work for the past year
and at the close of his present engage-
ment he has been appointed to open
up a new field, Howell's Lake.

Elmore has been expending consid-
erable energy in renovating the mi-
nister's house.

Trochu (German) has agreed to give
\$150 more to the M. and M. than last
year, and the field consists this year
of Three Hills German added to Bel-
seker and Mayton Trochu (St. Paul's)
has reduced their grant by \$100.

Carbon, under the fostering care of
the genial chairman of the presbytery,
Rev. C. B. Oakley, has arrived at self
support. Acme reports a new bell in
the church tower inviting the people
to worship.

Three Hills report the church base-
ment completed, repairs making the
manse more comfortable and \$680 giv-
en to M. and M. fund, besides giving
one of their elders, Mr. J.B. McCubbin
to supply Swallowell during the winter.

Bashaw having had serious losses,
asked that their grant be increased.

The Presbytery convenor of the M.
and M. reported that we had reached
our allocation.

The following were appointed lay
representatives to Conference meet-
ing on May 20th in Calgary: Mrs. N.
H. Purvis, Acme; Mr. Wallace, Ally;
A. W. Kitchen, Delburne; R.S. Frayne
Huxley; J.B. McCubbin, Swallowell; J.
Schinke and T.J. Smith, Trochu; and
L. B. Hart, Carbon. Alternates, J. C.
McNair and J.W. Splece.

Messrs. Oakley and Sieber were a
committee to report re the New Hymn
Book which is to be issued in about

six months, and Book of Order.

It was agreed that at the next reg-
ular meeting the Spiritual Life of
the Church would be the first order
of business.

The Delburne people gave the Pres-
bytery a royal welcome. The ladies
tendered them a chicken banquet in
the home of Mr. and Mrs. Farries, and
Delburnites gave gracious hospitality
to the members of the Presbytery.—
Rev. F. J. Hartley, Trochu.

PER CAPITA WEALTH IS HIGH IN ALBERTA

Alberta stands second among the
provinces of the Dominion in its per
capita national wealth, being exceed-
ed in this respect only by British Co-
lumbia, according to figures just is-
sued by the Dominion Bureau of Sta-
tistics. As regards the provincial
distribution of wealth, Ontario ranks
first with an estimated agricultural
wealth of \$9,130,189,000 and Quebec
second with an estimated wealth of
\$6,658,108,000. The western provinces
however, lead in per capita wealth.
British Columbia holds first place with
a per capita wealth of \$3,844; Alberta
second with \$3,608; Saskatchewan is
third with \$3,559 and Manitoba fourth
with \$2,957. These figures may be
compared with \$2,902 for Ontario;
\$2,598 for Quebec and \$2,842 the per
capita wealth for the whole Dominion.

EDMONTON-GRANDE PRAIRIE LINKED BY AIR SERVICE

Transportation from Edmonton to
Grande Prairie has become a matter
of a few hours with the inauguration
during the past week of a commercial
air service between these two points
by the Commercial Airways Limited.
The first flight of the service was
made on Thursday by Captain "Wop"
May flying the Commercial Airway's
new Lockheed-Vega plane. Leaving
Edmonton at 9:05 a.m. Captain May
and his passengers had lunch in
Grande Prairie and reached Edmon-
ton on the return flight at 5:15 p.m.

Nome Hero, Derby Winner

Leonhard Sepella, hero of the famous race to Nome, is congratulated
on winning the Seventh Eastern International Dog Sled Derby at
Quebec. He covered 123 miles in eleven hours, six and a half minutes
with his sturdy team of Siberian huskies.

Dog sled derby records were broken and new ones established
during the three days of the race. Dupuis, who finished second, made a
world's record when he completed the first lap of 41 miles in 3 hours,
22 minutes, 42 seconds. Of the nine who finished the three laps, only
two took as long as the first Derby winner at Quebec in 1923, demon-
strating that harder and speedier dogs have been developed for sled
work since then.

WESTERN EDITORS PLAN
VISIT TO PEACE RIVER

A trip through the Peace River country is planned by the editors of the Alberta Weekly newspapers following the annual convention of the Alberta division of the Canadian Weekly Newspapers Association, to be held in Edmonton during the month of August.

McCORMICK DEERING TRACTOR
SCHOOL TUESDAY MARCH 19

A McCormick Deering Tractor school will be held in the Farmers Exchange hall next Tuesday, March 19, commencing at 9 a.m. The school will be in charge of McCormick Deering officials and reels of film will be shown in connection with the program.

A building permit was recently issued to the Alberta Dairy Pool Ltd. for the construction of a \$20,000 brick building at 10531-102nd street, Edmonton. The building will be of sufficient size to handle satisfactorily the ever growing central office activities of the Dairy Pool.

Here and There

(250)

In 1913 the Canadian Pacific Railway's tax bill was \$1,382,000; in 1927 it was \$7,358,000, an increase of 432 per cent, working out at \$20,160 per day, \$740 per hour, or \$14 per minute.

Dean Laird of Macdonald College St. Anne de Bellevue has, during the past five years, conducted over fifteen hundred people through the west. This year he is planning a sixth all-expense tour with special train accommodation.

The Jersey cattle sale of B. H. Bull & Son in Toronto the other day resulted in the highest average prices for the breed yet recorded in the Dominion. Seventy-six animals averaged \$556. This included many yearling heifers and young bulls. The top animal, Brampton Bay Xenia, sold for \$8,000. This is the third highest price ever paid for a Jersey cow in North America.

Running down a timber wolf with a railway locomotive was the unusual sport tried near North Bay recently when a C.P.R. light engine hauled a 90 pound specimen. Engineer M. Lafontaine on rounding a curve saw the wolf on the tracks a short distance ahead, and opening the throttle, succeeded in striking the beast with the pilot steps. Conductor W. G. Watling ran back and finished off the animal with a poker. A bounty is paid on wolf skins by the government as the animals are a menace to game and livestock.

Canada now holds the world record for winter cruises. With one cruise around the world, another to South America and Africa, a cruise to the Mediterranean and three to the West Indies this season, the red and white chequered house flag of the Canadian Pacific is seen in nearly every important port in the world. Next season another cruise is to be added, making two to the Mediterranean, and extensive additions will be made to the itinerary of the "Empress of Australia" on her seventh cruise around the world, starting December 2nd.

The interest of the Prince of Wales in Canadian affairs was demonstrated recently when, following his speech at Mansion House, in London, he visited the British Industries Fair, and spent some time in examining the exhibits of the Canadian Pacific Railway. He took great interest in the moving train models and commented upon the artistic nature of the round the world cruise working model. Her Majesty the Queen, and Prince George passed along the same gangway and showed great interest in the displays.

One of the most colourful and interesting events of the winter season in the west is scheduled to take place in Regina on March 20-23 next when the Great West Canadian Folksong, Folkdance, and Handicrafts Festival will be held in the Saskatchewan Hotel in Regina. Over twenty nationalities will be represented in the musical and dance programme and in the exhibits of handicrafts, and a number of artists from the east will be present. The concerts are being arranged by the Canadian Pacific Railway in co-operation with the Conservatory of Music of Regina College.

Canada's Financial Position

The financial position of the Dominion of Canada, as revealed by Hon. J. A. Robb, in the budget presented by him to the House of Commons on March 1, is such as to be the source of great satisfaction to all citizens, because, irrespective of party affiliations, every Canadian is intensely interested in the allied subjects of Dominion finances and taxation.

During the war Canada piled up a huge debt for a nation of less than ten million people. The people assumed the heavy burden without grumbling, knowing it to be absolutely necessary, and a price that must be paid to safeguard the liberties of the world, including their own. As war expenditures enormously increased and the debt piled up, it, of course, became necessary to impose much new and heavier taxation, not only to keep the debt as low as possible, but in order to meet heavy annual interest payments upon that debt.

Even after victory was won it was necessary to still further increase the debt in order to bring our armies home from Europe, re-establish the men in civilian life, and make provision for huge sums to be paid annually in pensions. Therefore, for some years the debt continued to increase and heavy taxation to be imposed. At one time it almost seemed that, instead of the debt being decreased, it would go on increasing from year to year.

Recent budgets have, however, been most encouraging, and none more so than that of March 1, last. After meeting all expenditures on both current and capital account, Canada rejoices in a surplus of \$70,000,000, the largest ever recorded since Confederation. And this surplus for 1928-29 follows on the heels of a surplus of \$67,000,000 in the preceding year. The net result is that as loans mature the Finance Minister is in the happy position of being able to pay them off in cash and not forced to borrow by refunding loans. In other words, the debt is being steadily, even rapidly, reduced. In the fiscal year now closing, Mr. Robb paid off \$52,000,000, and he has cash in hand to pay off another \$60,000,000 which falls due next August. Thus in two years \$112,000,000 is paid off the national debt, and about \$6,000,000 a year saved in interest.

Mr. Robb pointed out that seven years ago, on April 1, 1922, the annual interest charge on the public debt amounted to \$133,482,113, whereas on April 1, 1929, the annual charge would be \$117,142,100, a decrease of \$16,340,012.

This very gratifying reduction has been brought about, not by increasing taxation, but, on the contrary, in the face of a steady lessening of that burden. For example, the sales tax, which a few years ago was six per cent, is now only two per cent; the rate of postage has been reduced from three to two cents; the size of incomes exempt from taxation has been increased, and the rates payable on others reduced; the stamp taxes on receipts abolished and on cheques largely reduced; numerous reductions in customs tariff schedules have been made, and now taxes on telegrams, cables, insurance policies, railway and steamship tickets are to go.

It is not possible, of course, to remove taxation as rapidly as it was imposed during the war years, but every year sees some advance in the right direction made. And every such reduction has had a beneficial effect on the business of the country with the result that the lower rates have brought in revenues only slightly smaller.

Reduction in taxation has been made possible through three main causes. First, the care exercised by Mr. Robb over all expenditures which he has insisted be kept down to the lowest possible point consistent with efficiency and the expanding needs of the country. Economy has not been enforced to the point where development of the country was checked, but expenditures on non-productive services have been kept to a minimum. Second, whereas in 1920, 1921 and 1922, the Canadian National Railways were operated at a deficit amounting in these three years to no less a sum than \$148,000,000, in the year just closed, the C.N.R. not only paid all operating expenses, all interest on bonds and debentures held by the public, but accumulated a cash surplus of \$6,000,000. Third, the substantial increase in the trade and commerce of Canada, assisted by reductions in taxation, and the marked development in all branches of industry, has brought larger revenues to the Government.

And the bright, the promising feature of the situation is that all indications point to a continuance of these same favorable conditions throughout the next fiscal year so that the people of Canada can look forward with a large degree of confidence to next year's Budget disclosing another large reduction in the national debt and still further decreases in taxation.

New Land Under Cultivation

Extensive Areas in Western Canada Are Annually Taken Up

Additional extensive areas are annually brought under farm cultivation in Western Canada. Last year it was estimated a total close to 2,500,000 acres of Canadian Government free homestead lands were taken up by settlers in the four Western Provinces; a total of 15,560

homesteads being filed upon, each of 160 acres, compared with 6,357 in 1927.

There is now one motor vehicle for every 21 of the population of Great Britain.

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective, is mild.

Without Comment

A California authoress sent a manuscript to Ambrose Bierce, with the request that he give her "a criticism in one sentence, and drop further comment." Something was heard to drop all up and down the Pacific coast when he replied: "The covers of your book are too far apart."

Not only does the girl in some districts of Indo-China make the proposal, but with her also lies the initiative for divorce.

To Boost Edmonton

New Industrial Association Has Been Organized To Encourage Industries

A new association has been formed in Edmonton under the name of the Edmonton Industrial Association, of which J. B. Starky, of the Penn Mine, is president, and W. R. Howson, local barrister, vice-president. The association gave a get-together dinner recently, which was attended by 150 business men. The object of the organization is to patronize Edmonton-made goods and to encourage industries in this city.

Sore Corns Drop Off If You USE "Putnam's"

When you notice any sign of callosities on the feet or toes—that's the time to point on a few drops of PUTNAM'S CORN EXTRACTOR. Do this, and you prevent corns. No matter if the corn is hard or soft. Let it be on top or between the toes. Putnam's will remove it without pain. Insist on PUTNAM'S CORN EXTRACTOR. It does the work—and roots out the corn, quickly and without pain.

Predicts Library Of Aerial Photographs

May Be Created Within Ten Years Says J. W. Pierce

The creation of a library of one million aerial photographs within the next 10 years to constitute a reference inventory of Canada's natural resources was predicted by President J. W. Pierce, D.L.S., at the annual convention of Dominion Land Surveyors at Ottawa when he said that already 250,000 aerial photographs covering areas from coast to coast had been assembled and placed in use for this purpose under the Topographical Survey of Canada, Department of the Interior.

ABOUT YOUR NERVES

Headaches and Other Troubles Follow When the Nerves Give Way

Nerves are delicate fibres running from the brain to all parts of the body. Some of them give us the sense of touch and feeling; others convey the will to our muscles and enable us to move. When we have an "attack of nerves" it means that the body is in some way out of order and the nerves have become over-sensitive so that we get neuralgia, nervous headache, sciatica, or some other nerve trouble. Sometimes the nerves get too weak to do the will of the brain, and we get trembling hands or limbs, or perhaps St. Vitus dance. The whole nervous system is fed and kept healthy by your blood. If that is thin and poor nervous weakness follows. In that case a tonic is needed to build up the blood, so that it may in turn feed the nerves, spine and brain. The very best medicine for enriching the blood is Dr. Williams' Pink Pills. You cannot take them without feeling the uplift they give. Your appetite improves, your brain is clearer, you feel full of new life. One sufferer, Miss Margaret R. MacDonald, Catalone Road, N.S., tells what this medicine did for her. She says:—"I suffered for a long time from severe headache and nervous exhaustion. I tried several kinds of medicine but got no relief until I used Dr. Williams' Pink Pills, and these, before long, gave me complete relief. From my own experience I feel that I cannot praise Dr. Williams' Pink Pills too highly, and would advise anyone who is suffering from headaches or nervous exhaustion, to give them a fair trial, as I feel sure the results cannot be anything but satisfactory."

Take these pills as a tonic if you are not in the best physical condition and cultivate a resistance that will keep you well and strong. You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

George Washington's second inaugural address contained 134 words, and is regarded as the shortest in the history of such occasions in the United States.

Has Met With Success

Marshall Stillman Movement In States Helps Discharged Convicts To Reform

Possibly few persons could say off-hand what the Marshall Stillman Movement is, and yet it is grappling with, and greatly aiding in the solution of, one of the most pressing social problems in the United States, that of taking care of the convict on his discharge. It strives to catch the former convict just as he leaves prison in a mood of uprightness and to give that mood an opportunity to express itself. Its "clubs" have figured as perhaps the most important feature of its work until recently, but during the last year the question of jobs for its wards has been answered more successfully than ever before by the establishment of enterprises where former convicts alone are employed. The plan has succeeded beyond expectation, and to date, has to its credit a 100 per cent. record of achievement; that is, there have been no backsliders.

Society has in the past been responsible for many first-time offenders becoming habitual criminals. This movement is an effort to enable men who earnestly desire to do so, really to straighten out. — Chicago Science Monitor.

YOU CAN'T DYE with Good Intentions
You can get results—after a fashion—with any old dye; but to do work you are proud of takes real anilines. That's why we put them in Diamond Dyes. They contain from three to five times more than other dyes on the market! Cost more to make? Surely. But you get them for the same price as other dyes.
Next time you want to dye, try them. See how easy it is to use them. Then compare the results. Note the absence of that red-dyed look; of streaking or spotting. See that they take none of the life out of the cloth. Observe how the colors keep their brilliance through wear and washing. Your dealer will refund your money if you don't agree Diamond Dyes are better dyes.
The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. Remember this when you buy. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

RESOLUTION ON RESOURCES IS FINALLY ADOPTED

Ottawa.—After a stormy career, the Woodsworth resolution on natural resources, in amended form, finally passed the House of Commons. Debate on the resolution and on the numerous amendments which followed its introduction, has held up consideration of the budget for several days.

The resolution finally emerged, after the buffeting which it has received, in a very different form from that which its mover intended. As originally drafted and presented to the House by J. S. Woodsworth, Labor member for Winnipeg North Centre, it set forth "that in the opinion of this House, no disposition of the natural resources, under the control of the federal government, shall be effective until ratified by Parliament."

The resolution as approved by Parliament, reads as follows:

"That, in the opinion of this House, no further disposition of water powers under the control of the federal government in the provinces of Manitoba, Saskatchewan and Alberta, shall be made under the Dominion Water Powers Act, but the said water powers shall be administered by the respective provinces under powers to be granted by this Parliament similar to the powers granted to the province of British Columbia to administer the water powers in the railway belt, as set forth in the railway belt water act of 1912."

Master Mariner Dies

Captain William Sanderson Came To Vancouver In The Eighties

Vancouver.—Death of Captain William Sanderson, pioneer Canadian Pacific Railway Company master mariner, has broken a link between the present and an earlier shipping era on the Pacific Coast. Captain Sanderson, for whom funeral services were held in Vancouver, was a native of Liverpool, and came to Vancouver in the 80's, a boatswain of the old "Empress of India" on the liner's maiden voyage. He remained in the employ of the Canadian Pacific here until his retirement some years ago.

A Record Production

Ottawa, Ont.—Mineral production in Canada reached a net record in 1928 with a total of \$273,416,864. This surpasses the 1927 figures by \$26,090,169 or 10.5 per cent. Advances were general in all fields; metals non-metals, fuels and structural materials. Figures were made available at the Dominion bureau of statistics.

Did Not Finish Sentence

Belfast.—Eamonn de Valera, Irish Republican chieftain, was released from jail, four days before finishing a 30-day sentence he had been serving for illegally entering Ulster territory.

INTESTINAL flu, high blood pressure, nervous disorders—how careful one must be to avoid these dangerous ailments at this time of the year.

Keep the system clear of poisons and impurities. Tone up the liver, prevent bile stagnation and intestinal lethargy. Let Marlatt's help you as it helps thousands every year to ward off illness and disease.

Hoover Is Starting Prohibition Drive

New President Plans To Clean Up National Capital

Toronto.—A special despatch to the Mail and Empire, from Washington, says:

"President Hoover will begin his prohibition enforcement drive in Washington. He will confer at an early date with the commissioners of the district of Columbia and urge them to clean up the national capital. Another step will be to appeal to all public officials to refrain from patronizing boot leggers and drinking. His drive here may result in stopping many hosts and hostesses from serving drinks at dinners attended by public men and women."

"During the Coolidge regime Washington entertainers gradually curtailed use of strong drink at parties, but Mr. Hoover will further discourage the custom."

Opposes Intervention

Premier Baldwin Against Direct Governmental Intervention In Mining Industry

London, England.—Direct governmental intervention in the mining industry would not be advantageous, Premier Baldwin told a deputation from the Miners' Federation, according to the joint report of the proceedings at the meeting recently issued. Mr. Baldwin expressed the opinion that amalgamations and other forms of re-organization in the industry were progressing satisfactorily.

The most urgent matter requiring attention, he said, was the transference of the surplus miners to other industries. He appealed for the co-operation of the Miners' Federation with the government schemes in this matter.

Wins Dog Derby

St. Goddard First To Cross Line In Northern Manitoba Classic

The Pas, Man.—In the most sensational finish ever witnessed in any dog derby, Emile St. Goddard, youthful "musher" of international fame, finished in the renewal of The Pas dog derby association 200-mile non-stop derby.

St. Goddard reached the finishing line on the Saskatchewan river at 11.09 p.m. His time for the 200-mile course to Flin Flon and return was 26 hours 59 minutes.

Earl Brydges, another local entrant, finished second, only three minutes behind the famous St. Goddard, after fighting an uphill battle during the early hours of the night.

Attempt To Salvage Plane

Copenhagen.—Four members of the Hobbs' expedition in Greenland, have left Mount Evans, Greenland, on an attempt to salvage the aeroplane of Bert Hassel and Parker Cramer. The plane came down last summer 12 days' walking distance from Mount Evans, where the Hobbs' expedition is wintering. Word of the salvage attempt was radioed to the newspaper Ekstrabladet.

Accepts Radio Agreement

Ottawa.—Word has been received by Alex Johnston, deputy minister of marine, that Newfoundland has accepted the radio agreement concluded by Canada, the United States, Newfoundland and Cuba, covering the short waves. Cuba and Mexico have yet to be heard from.

Ex-President Will Write

New York.—Curiosity as to what Calvin Coolidge would do on returning to private life was at least partially satisfied by announcements that contributions from his pen would appear in two magazines.

Celebrates Birthday

Toronto.—Toronto celebrated its 95th birthday March 6, having been incorporated as a city by act of the legislature, which received royal assent March 6, 1834. In 1834, Toronto had a population of 9,251.

Appeal Is Dismissed

Toronto.—The appeal of Arvo Vaaro, editor of Vapaus, Finnish newspaper published at Sudbury, Ont., from a conviction in that city on a charge of publishing seditious libel, was dismissed in second divisional court.

RECEIVES CONGRATULATIONS

Dr. Donald MacGillivray, pioneer missionary in China, who is receiving congratulations on the fortieth anniversary of his entrance into the Chinese mission fields.

To Ban Poison Gas

Germany Prepared To Sign Agreement Prohibiting Use Of Gas In Warfare

Geneva.—Germany, which introduced the horrors of poison gas on a large scale during the world war, has announced to the world that she is prepared to sign a protocol prohibiting the use of asphyxiating gas in warfare.

The announcement by Dr. Gustav Stresemann, German foreign minister, sent the regular March session of the League of Nations council off to an auspicious start in its efforts for world peace.

Stresemann said Germany would ratify the protocol shortly. August Zaleski, Polish foreign minister, announced that Poland also would ratify the protocol.

New Scholarships Offered

Acceptance To Be Considered By University Of B.C.

Vancouver.—A \$1,000 scholarship in economics, effective for three years, with a free study trip to the Orient, will be possible for students at the University of British Columbia, through an offer by H. R. MacMillan, Vancouver exporter. The offer will be considered by the board of governors of the University shortly. By means of the scholarship Mr. MacMillan hopes to promote the study of Oriental trade and business conditions on the Pacific.

Going Upstairs Had to Sit Down Breath So Short

Mrs. H. Brousseau, Magog, Que., writes:—"For many years I suffered with shortness of breath; then four years ago I had palpitation of the heart, and was so bad I had to sit down two or three times when going upstairs. I read about

so I got a box, and in no time I felt better, so I took three boxes more and I have never had shortness of breath since."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Ice-Bound In Baltic Sea

Copenhagen.—Christian X., King of Denmark, Queen Alexandrine and Prince Knud, arrived here after spending the night aboard a ferry ice-bound in the Baltic Sea. The ship took twelve hours to make what ordinarily is a two-hour voyage from Warnemuende to Gjedser.

Compulsory Voting Law Is Considered

Workings Of Australian Law Being Studied By Committee

Ottawa.—Compulsory voting has been under consideration by the special committee of the House of Commons which is dealing with amendments to the Dominion Elections Act and the Corrupt Practices Act. No decision as to the principle involved will be made until sections are drafted suitable to Canadian conditions.

Dr. T. E. Kaiser, Conservative, Ontario, read to the committee the sections of the Australian act which he said was working satisfactorily. In the last election in that country 91 per cent. of voters on the lists had attended the polls as compared with 78 per cent. in the previous election. With the assistance of W. A. Boys, Conservative, Simcoe, North, Dr. Kaiser is to draft sections suitable for inclusion in the Dominion Elections Act.

The Australian Act provides a penalty of £2 for failure to vote, if no reasonable excuse can be given for such failure.

Question Validity Of Pension Law

Quebec Opinion Considers Federal Pensions Act Ultra Vires

Quebec.—Legal opinions furnished to the premier of Quebec as to the federal old age pension law raised the constitutional question as to whether or not the Dominion government has power to use its monies to pay to the provinces a part of the cost of such a scheme as the old age pension law.

This is the information which Premier Taschereau gave to the Quebec legislative assembly when debate was resumed on a motion for production of documents relating to the pensions scheme.

Mr. Taschereau has consulted three constitutional authorities in the matter, Eugene Lafleur, K.C., Alcee Geoffrion, K.C., and Louis St. Laurent, K.C. Mr. St. Laurent gave it as a definite opinion that the federal law is ultra vires, the premier said.

Farm Loans For B.C.

Loans May Be Made Available For Agriculture By First Of May

Victoria.—Farmer loans should be available to British Columbia agriculturists by May 1, according to an announcement given out here by Dr. J. D. MacLean, chairman of the Canadian Farm Loan Board.

The chairman of the board stated that nominations for places on the provincial loan board had been made by the provincial government and will be considered by him and his colleagues immediately. The names of the provincial nominees were not revealed.

Would Retain Dole

London, England.—First reading has been given in the House of Commons to a bill which makes migrants from Britain still entitled to unemployment insurance benefits. The bill provides that a migrant who goes overseas but remains within the Empire, should receive unemployment pay for a period up to two years.

Wants Churchill Site

Winnipeg, Man.—The Manitoba government has opened negotiations with Ottawa for taking over the Churchill townsite. Hon. D. G. McKenzie has left for the capital to talk over the question with officials there. He will also visit Toronto to discuss rural hydro electric rates with officers of the Ontario hydro system.

Killed By Avalanche

Erivan, Russia.—Thirteen persons were killed and many injured in an avalanche in the Armenian village of Zangjur, advices received here recently stated. Several houses were destroyed by the avalanche, which was reported due to heavy snowstorms in the region.

Cement Prices Reduced

Winnipeg.—A reduction in the price of cement of ten to fifteen cents throughout the prairie provinces, is announced by the Canada Cement Company.

EARLY END OF MEXICAN REVOLT IS PREDICTED

Mexico City.—A speedy end of the rebellion against the administration of Provisional President Portes Gil was predicted in an official government bulletin recently.

The bulletin said that General Jesus M. Aguirre, leader of the revolt at Vera Cruz, had been deserted by most of his soldiers, who had returned to the support of the government and were fighting their former leader.

Announcement also was made that the federals had re-captured Monterrey, the strategic centre in Nuevo Leon, had taken Cordova, in the State of Vera Cruz, and would in a few days be in full possession of the gulf port of that name.

Washington.—The Mexican government situation is causing more anxiety in Washington than anything else since the Nicaraguan revolt. Men in high government and senate circles state frankly that the revolt has a very good chance of overthrowing the Mexican government.

This might result in the United States having to undertake another expedition with marines into a Latin country. The Nicaraguan experiment proved so unpopular with the average American that the government is not anxious to repeat it. But the protection of American nationals and their property in Mexico will be the first consideration.

Seek Potash Deposits In British Columbia

Prospectors Being Encouraged By Smelter Company At Trail

Victoria.—The Consolidated Mining and Smelting Company, which wants potash for its new fertilizer industry on which it is entering on a large scale at Trail, B.C., announced measures here for the encouragement of prospectors in the unearthing of potash deposits believed to exist in British Columbia.

The Consolidated will make a free analysis of samples for prospects and to aid in the identification of samples, deposits are being placed on display here and in Vancouver. A booklet on potash and its occurrence will also be sent from Trail to anyone desiring it.

Radio Helped Unemployed

Berlin.—The first German attempt to get employers and unemployed together by radio succeeded beyond hopes of those fostering it. The municipal employment offices had more jobs than men. In answer to appeal over government radio station for workers, several thousand jobs were filled.

Huge Seizure Of Narcotics

New York.—Narcotics worth \$1,000,000 at the price addicts pay, were seized as they were being shipped by express to distributors of the underground drug trade in the south and west. Four men, one of them said to be a professional bodyguard to gangsters, were arrested and held in high bail.

Mrs. Sam Speers Tells How Cuticura Healed Her Baby

"When baby was three days old he started to break out with eczema. It began with very small pimples which later festered and broke and then scaled over. When he was twelve days old he was almost entirely covered with eruptions. The affected parts seemed to itch and burn so that I had to keep mittens on his hands to prevent him scratching his face."

"My mother advised me to try Cuticura Soap and Ointment. He seemed to get relief after the first treatment, and in two months he was completely healed." (Signed) Mrs. Sam Speers, Innisfree, Alberta.

Cuticura Soap, a world-famous aid to beauty, cleanses and purifies the skin and hair, restoring them to their natural, fresh and wholesome beauty. Its daily use maintains them in a delightfully healthy condition.

Soap 25c. Ointment 25c. and 50c. Tubes 25c. each everywhere. Sample each free. Address: J. T. West Company Limited, Montreal. Cuticura Shaving Stick 25c.

Advertising Pays**Who Does Your
Printing?**All business houses need more or less printed matter, all of which
is within the possibilities of the local printer. Yet how prone
many are to pass up the home printer and let the orders go to
city offices which have no interest whatever in rural communities
except to get printing orders and the cash to pay for them. Busi-
ness men, remember that the home paper is constantly promot-
ing the interests of the home community and you owe it to your-
self and your local paper to back up these efforts by at least hav-
ing your printed matter done locally.
